

## "Tour A - Félix Giorgetti" Luxembourg Kirchberg

This prestigious tower building located in the direct neighbourhood of the EU's Convention Center and Luxembourg's recently opened hall for philharmonic orchestras, is part of the company's renting portfolio. It represents a big step in the development of our strategy to invest in real estate. The 15'000 square meters large and 71,6 meters height building has 19 overground and 5 underground floors. Due to a special concrete forming technique, our company realized one floor every four work days. The building was completely finished by the end of 2003 and occupied from then on by the European Parliament's back office institutions.

Félix Giorgetti s.à.r.l.  
3, rue Jean Piret  
L-2350 Luxembourg
